

# I-9 Compliance

Avoid fines and reduce costs

Immigration laws have become a major focus of the US Federal Government. The INS has strict rules and stiff penalties for non-compliance. I-9 audits and internal management are costly.

**IDM's Web-based I-9 Compliance** system lets you know how you stand. Simply provide IDM with your paper or electronic I-9 forms and we take care of the rest.

Your forms are scanned and data from each form is entered or extracted into a secure on-line repository. We compare your I-9 database to your employment records, validate Social Security Numbers, check compliance and display your status:

## I-9 facts

A temporary employment agency in Winona, MN, was **fined \$141,295** for hiring 103 unauthorized foreigners and other compliance infractions.

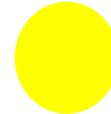

Potential fines can range from \$100 per alien for minor technical violations (such as failing to record an employee's date of birth) to \$10,000 per alien for intentionally hiring unauthorized workers.

Racketeer Influenced and Corrupt Organizations Act (RICO) allows private enforcement of employment violations.

An estimated 90% of employers are not in I-9 compliance.

You receive immediate **email alerts** for non-compliance and expiring documentation.

Your on-line I-9s look **exactly like their paper counterparts**. I-9s can be kept on-line indefinitely or scheduled for deletion. You can review, print and email your forms on-line at any time.

We work with the nation's leading law firms to provide private compliance audits. These audits are done on-line\*.

I-9s images and data are hosted on our secure servers. Our multi-location datacenters provide continuous uptime. We are certified as a Visa International (CISP) end-point, offering the **highest level of security**.

You can access your I-9s 7 x 24 x 365 via any modern web browser.

The cost of our I-9 forms compliance service is less than doing it yourself. Web hosting for your I-9s is free for the first year (minimum of 2,000 forms). Please contact us for a quotation.
